

# Enchanted Garden

Photography by  
James Lightbown

Dreamy greens, russet reds, macro and micro floral designs are complemented by soft violet and pink for a romantic and feminine mood, very at ease with itself. Silhouettes are flattering and not over structured, exuding easy and comfortable confidence. Detailing again is discreet with lacing and laser cut-outs and even frivolous touches but this is swimwear very much for the wearer rather than being designed to be seen!
